

Geographical Analysis

Where are our customers and revenue concentrated, and which regions show growth potential?

ORDERS BY COUNTRY

Insights: The United States leads in order volume, with returns scaling proportionally to demand rather than indicating abnormal return behavior.

MOM GROWTH BY COUNTRY

Insights: European countries show stronger MoM growth, indicating emerging momentum compared to more mature markets.

TOTAL SALES BY CONTINENT

Insights: North America drives the majority of sales, while Europe plays a strong secondary role and Pacific remains underdeveloped.

TOTAL SALES BY REGION

Insights: Sales are concentrated in a few high-performing regions, while several regions contribute marginally, highlighting expansion potential.

PROFIT AND PROFIT MARGIN BY YEAR

Insights: While the US and Australia lead in absolute profit, Canada delivers the highest margin, indicating superior profitability efficiency
